The Kivalliq Inuit Association (KIA) Board of Directors has made the difficult decision to move the location of the upcoming Annual General Meeting (AGM), originally scheduled to take place in Rankin Inlet from October 7-9, 2025, will now be held in Winnipeg, Manitoba on October 27-30, 2025.

This change is due to unforeseen flight cancellations in Rankin Inlet. The Board of Directors explored all possible options to keep the meeting in the Kivalliq Region; unfortunately, no options were available. Due to this reason, the Board approved the change in location to Winnipeg, MB

The KIA understands that this change may cause inconvenience to some members, and we sincerely apologize for any disruptions this may have caused. We are working diligently to finalize arrangements in Winnipeg and will provide further details regarding the venue and logistical supports as soon as possible.

Despite the change in location, the KIA remains committed to streaming this meeting online; a link will be provided for people to watch and listen in on the meeting in the coming days. We encourage all Kivallirmiut to participate in this important event either in person or via remote access.

Further updates and detailed information will be posted on the KIA website and social media platforms.
