

Kivalliq Inuit Association Education Fund

Application Form

The Kivalliq Inuit Association (KIA) Education Fund, as described in the Sapuulutaq Bylaw, aims to reduce barriers to education by supporting shorter, more flexible, or transitional forms of learning that build readiness and promote long-term success. This model is specifically designed to support learner autonomy, enabling applicants to pursue highly individualized educational goals.

Individual applications are accepted either year-round or during defined intake windows, depending on available funding and administrative capacity. This model allows individuals to apply directly to KIA without having to go through community organizations or formal approval processes.

Education Fund support is based on in-kind contributions from applicants. This means your request should explain what you are contributing and how KIA's support will help build on that contribution, such as allowing you to join a larger training program, take a remote course, or meet the requirements for further education.

The Application Review Committee will meet to review the application and recommend approval or denial. Support will be provided within the limits of available program funds. KIA's decisions are final and KIA will not consider any appeals.

If support exceeds the available budget, no further applications may be considered. .
